

TECHNICAL DATA SHEET: COUPE Sofabed

DIMENSIONS:

Closed Sofa:
W226 cm × D98 cm
× H80 cm

Opened Bunk Bed:
W226 cm × D98 cm
× H158 cm

Sleeping Area:
190 cm × 80 cm
per bed

Mechanism: Coupè is equipped with a special mechanism that transforms the sofa into a bunk bed through an innovative opening system. By simply lifting the seat, the upper bed rises easily, after which the lower bed can be pulled out. For safety, the sofa includes a locking key that secures the mechanism when the beds are open, preventing accidental movement and protecting both people and furniture. The key can be removed once the mechanism is locked.

Structure: The frame consists of a metal structure combined with external components made of chipboard, plywood, and solid wood, connected using bayonet fittings.

Padding: The sofa is padded with polyurethane foam of varying densities, produced and assembled according to CEE regulations.

Seat: Polyurethane foam mattress with a density of 30 kg/m³.

Backrest: Polyurethane foam with a density of 25 kg/m³.

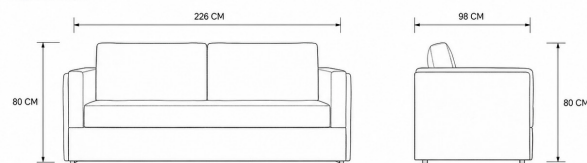

Covering: Available in fabric or synthetic leather, with fully removable covers for easy maintenance. Natural leather upholstery is not available.

Feet: The feet are integrated within the mechanism.

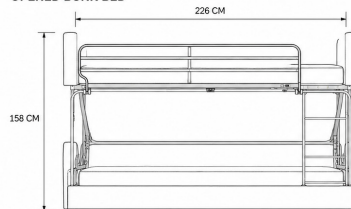

TECHNICAL SPECIFICATIONS:

CLOSED SOFA

OPENED BUNK BED
